

The floor plan illustrates the layout of a swimming pool facility. Key features include:

- Pool Areas:** Two main rectangular pools with curved ends, separated by a central service area. The pools are surrounded by a deck area with various seating and circulation paths.
- Central Service Area:** Contains two ventilation units (CENTRALA WENTYLACYJNA BASENOWA) and a central staircase. It also includes various technical equipment and piping.
- Technical Annotations:**
 - Power Ratings:** Various equipment is labeled with power ratings such as 1.5kW, 3.0kW, and 4.0kW.
 - Flow Rates:** Flow rates are indicated for different parts of the system, such as 60/40°C and 50/20°C.
 - Material Specifications:** Materials like Płyta żelbetonowa (reinforced concrete slab) and Płyta styropianowa (styrofoam slab) are specified.
 - Structural Elements:** The plan shows the placement of walls, columns, and other structural components.
- Orientation and Scale:** The plan is oriented with North (N) at the top. A scale bar at the bottom indicates a distance of 0 to 10 meters.
